SUPPLEMENT
REPORT NO. [REDACTED]

The compressor station No 3 on the Saratov-Moscow gas pipe line was several kilometers northwest of Kirsanov ($52^{\circ}38'N/42^{\circ}43'E$), Tambov Oblast. The compressor station, which covered an area of about 300 square meters, consisted of the compressor house proper with six large Diesel engines of American make; the power station with the boiler house and two or three General Electric generators of 5,000 kw each; the pump station with four centrifugal pumps; a water reservoir with a cooling installation and water tower; a tool depot and depot for accessories and spare parts; a machine shop; a filtering and pressure-regulating installation; an administration building; and several residential buildings. The entire station was in excellent condition and had modern equipment. It was put into operation in 1946.
